# Leadership Books You MUST Read
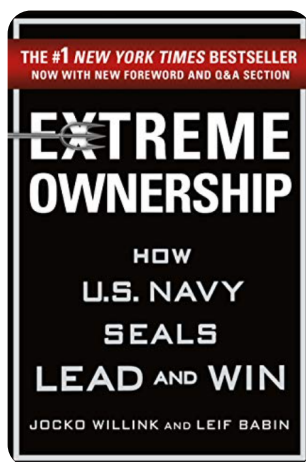

Dare to Lead

by Brené Brown

This book has strategies to align teams, which you can apply immediately. We have applied these tools with many groups leading to wild success. This is the heart-centered book you are looking for to lead your team into the future.

The Fifth Discipline

by Peter M. Senge

We base our systems analysis on the concepts in this book. It is a comprehensive investigation of your system and guiding teams to synergy. This is a must have for anyone running a large system.

Extreme Ownership

by Jocko Willing and Leif Babin

Willing and Babin are inspirational for all. Owning everything in your team leads to huge success. It is full of the authors' exploits as Navy Seals. The book has you feeling ready to reach new heights.

Lead From the Outside

by Stacey Abrams

If you are looking for an instructional book on how to change the world, this is it. Abrams is brilliant with her leadership strategy. This is a book that outlines what every inspirational leader needs to know.
